

Equipment

Sourcing, maintaining and updating equipment.

The Ministry of Health is not always able to provide equipment to meet all the needs identified by disabled people. There are many companies that sell low-cost equipment that you can buy over the telephone or online.

- [Ministry of Health - Equipment for disabled people](#)
Find out what equipment the MOH can provide/cannot provide. Click on the link for more information.
- [Accessible](#) - For more information about equipment and equipment maintenance, contact Accessable at:
Freephone 0508 001 002
Email info@accessible.co.nz
- [Firstport](#) - is New Zealand's disability information website for disabled people; their families, whānau and caregivers; health professionals and disability information providers.
They can also help you find places to **buy low-cost equipment** in your area: PH: 0800 171 981
Email: info@firstport.co.nz
- [Enable NZ](#): For all Government funded equipment. We provide government-funded equipment to people with a long-term disability. This includes physical, intellectual, sensory (hearing or vision) or age-related disabilities. Long-term means lasting at least six months. Click on link for more information.
- Some pharmacies also sell low-cost equipment.
